

# SEMINAR REPORT

---

*Name of the Seminar*

SEMINAR ON RESEARCH METHODOLOGY

*Date & Duration*

12<sup>TH</sup> April 2022

*Resource Person*

Prof. Zothanzami

Dr. Melody Laltanpuii

Mr. Isaac Laldinmawia

*Sponsorship*

Institutional

*Organised by*

Department of Psychology

*Nb of Participants*

41 Students,

# C O N T E X T

- ❖ On 12<sup>th</sup> April 2022, an insightful seminar on research methodology was convened, which aimed to provide participants with a comprehensive understanding of research principles and practices.
- ❖ The seminar took place in a vibrant academic setting, welcoming both experienced researchers and those new to the world of academia.
- ❖ In a time where information inundates us, the seminar addressed the need for robust methodologies to navigate this sea of knowledge and extract meaningful insights.

**1.Enhanced Understanding of Research Paradigms:** Participants gained a nuanced comprehension of various research paradigms. This knowledge enabled them to align their research approaches more effectively with their research goals.

**2.Mastering Research Design:** Through comprehensive discussions on research designs like experimental, correlational, and descriptive, participants developed the ability to select the most suitable design for their specific research questions.

**3.Proficiency in Data Collection Methods:** By exploring an array of data collection methods including surveys, interviews, and observations, participants honed their skills in choosing the right methods for their studies, ensuring more accurate and insightful data collection.

**4.Analysis Techniques Mastery:** Participants delved into the world of data analysis, acquiring proficiency in various techniques such as statistical analysis. This expertise empowered them to extract meaningful patterns from collected data.

## 5. Ethical Considerations and Responsible Research

**Practices:** The ethical aspects of research were explored deeply, equipping participants to navigate complex ethical dilemmas. The outcome was an increased commitment to responsible research practices involving human and animal subjects and data integrity.

## 6. Practical Application:

The seminar's value extended beyond the theoretical realm. Many participants expressed how they immediately applied the knowledge gained to their ongoing research projects. By applying appropriate methodologies and analysis techniques, they reported increased confidence in their research process and outcomes.
