Annexure III: BEST PRACTICES

Title of the Practice I **MENTORING OF STUDENTS**

Goal and Objectives:

- To foster a relationship in which the student feels that there is someone on the faculty who cares about his or her academic success and to whom he or she can turn to when the need arises
- To sensitize more faculty, staff and administrator to important issue that students face on the campus
- To assist student in adjusting to academic life as well as mentor through life's lesson.
- To have someone accountable for the students who can encourage and motivate as the student's faces the reality of life's challenges.

Context:

Mizo people hold the value of mentoring very highly in the society. 'Zawlbuk' in the pre-colonial days was a community dorm- like for boys. In this place, the elders counseled and mentored the younger generation of boys, teaching them traditions, laws and providing them support and advice. This practice of mentoring is placed very highly among the Mizo people. Mentoring is a valuable strategy to provide students with the emotional and instrumental support students need to achieve the goal of a college degree and life-skills. By providing information, guidance, and encouragement, mentors can play an important role in nurturing college students. Mentoring of students by the teachers helps them to feel more connected and engaged on campus which ultimate improve the student's outcome. Mentoring programs place a strong emphasis on a positive youth development, reducing the likelihood that students will be engaged behaviors such as poor class attendance or drug use or any other bad conduct. It imbibes within the student a concern for the community such as civic engagement and college and career exploration as well as enhances confidence in dealing with challenges and issues.

The Practice

- Students are divided into groups of 7 to 14. Each group is assigned to a particular teacher who is to guide them academically and whenever need arise. The teacher becomes the mentor and the student is the mentee.
- Different activities are planned and organized in groups. A mentor assists and guides the mentee in academic projects and research project. They are taken for field visits and other educational places for exposure. The mentor becomes accountable for the student of their respective groups. The Mentor keeps a close eye on the mentee's academic performance in the college. They identify students who are in need done special attention and find ways to uplift their grades and results. Different methods are applied to assist students who are lagging behind academically. House visits are also carried out, where the mentor visits the mentee at home. This provides a sense of closeness as well as an opportunity for the mentor and the mentee to know each other better and spend time in chalking out ways to solve problem if any arises.
- Personal interaction: Mentors and Mentees have personal interactions on issues concerning the mentees. The mentors encourage and motivate the mentees to have goals, they give advice and guides them in pursuing it. Very often there are personal problems faced by the students at the home front or even relationship issues, in situations like these, the mentors listen to their problem confidentially and help them to overcome it. There is a close relationship between the mentor and the mentee.
- Financial assistance: There are some students who are not financially well-off. In such cases, mentors often help their mentees financially as well. There have been cases where house rents or admission fee cannot be paid by the student at the required time, it is again the mentors who come up with financial assistance for situations as these.
- Communication and interaction are one of the key factors for mentoring. To keep and stay in touch with one another, chat groups are made via social media such as whatsapp and pages are also made in facebook. This way the mentor can guide them as well as monitor the group that they are accountable for in groups as well as individually though these social media.
- There are Clubs which are established based on the interest of the students such clubs comes under a Society called 'Freedom Arts Society'. Under this society, there are 5 clubs i.e The Music Club, Theatre and Dramatic Club, Choreography Club, Cultural Club and Visual Arts Club. The members of this group are very talented as well as creative. There are mentors for each of these clubs who guide them and help them to grow as an individual and develop their skills. The mentors help them to organize workshops and arrange platforms for them to perform. The mentors help them to encourage and build up their skills as well as their confidence.
- Student Union is a very important body in the campus. These students are elected in a general election directly by the registered college student. There are 5 department which the Student Union are in charge of as Secretaries, namely; Outdoor Sports Department, Indoor Sports Department, Debating Department and Socio-Cultural Department and College Magazine. These elected student though they are the Secretaries of these department, they each have the teachers are their mentors to guide them in executing their duties. The mentors teach provides support, guidance and encourages them in performing

their role. They even prevent them from making bad decisions or faltering in when doing their work.

Evidence of Success:

Mentorship program has helped the teacher (mentor) and the student (mentee) to benefit in a lot of ways. This program has enabled the relationship of the teacher-student to grow which has resulted in many gains. We have witness success in ways as follows:

- Satisfaction in enhancing skills in helping someone else to grow
- Gain fresh perspectives through interaction
- Further develops leadership skills including providing feedback, communication and interpersonal skills
- Create an environment that fosters personal and professional growth through the sharing of business information, skills, attitudes and behaviors
- Increased motivation and work satisfaction (for mentees and mentors)
- Enhanced people skills
- Improved performance of the student
- An enriched learning culture
- Accelerate processes for the identification, development and Provides a ‘personalised’ development opportunity to address individual learning needs
- Provides an opportunity to develop new skills and expertise
- Provides access to independent and objective perspectives
- Enhances confidence in dealing with challenges and issues
- Enhances networking opportunities
- Drives the student to set goals and to strive towards them
- Increases individual visibility and recognition in the organization
- Helps to clarify and enhance career direction and advancement
- Provides support during times of change and transition

Problems encountered and resources required:

The practice of mentoring is a carried out by the lecturers to the best of their ability that there is a high rate of success in achieving its purpose. Yet, there are few problems that limits the smooth working of the mentorship.

Activities with the mentees cannot be planed or organized as much due to lack of funds. To encourage students, there is a need to provide a platform for exposure or to build confidence. Very often, it is not possible to organized events where the talents and the skills of the students can be show cased due to lack of financial assistance.

Students are different and special in their own way. Though there are students who are willing to open up and share their concerns freely, there are students who are more introvert and reclusive, often these student provide a tough time for the mentors to talk and counsel them in areas and issues which concerns them. This provides a challenging situation for the mentor. Therefore, there is a need for the mentor to build a skill of mentoring to overcome this limitation.

Title of the Practice II **PROMOTING SOCIAL RESPONSIBILITY**

Goal

1. To provide social dimension to the educational system of the college and inculcate social responsibility and commitment in the students.
2. To bring forth the team spirit and leadership qualities of the students and broaden their social outlook that will help them work for the welfare of the community.
3. To equip the students with skills, attitude and knowledge to work with the disadvantaged sections of society.
4. To play an integral role in developing, advancing, and serving the local community.
5. To assume responsibility for all our decisions and actions and ensure the best use of available resources.

Context:

Government Hrangbana College has always encouraged its students to inculcate compassion towards their fellow human beings and to be a blessing for the society. Mizoram is a state which has strong civil society and therefore the values of caring and sharing with the less privileged or the collective responsibility to empower the underprivileged is deeply imbibed in the nature of the students which is rather advantageous in carrying out the practice of social responsibility. The purpose of education is not just preparing the students for a livelihood but also to make them good citizens and above all good human beings. The objective is to make themselves reliant so that they can live with respect and dignity. Our college encourages a lifelong ethic of community service.

Practice:

The institution promotes social responsibility where students acquire attitude for services and training, contributive to community development, environmental awareness and holistic development:

The various groups of the college, after careful social survey and research of the people around Aizawl city, chalk out a list of what people around them are in need of, especially the under-privileged and vulnerable section. In accordance with these needs, their actions and activities are planned. These activities are as presented below:

- Blood Donation camp is regularly organized several times annually for Government and Non-Government hospitals.
- Constructions of Public Water Reservoirs benefit the local people to have adequate supply of water for their domestic purposes during dry season.
- Cleaning of public water reservoirs benefit the community to have water safe for drinking.
- Construction of waiting sheds benefits the passengers waiting for bus services to have shelter from sun and rain.
- Cleaning of Streets and Roads benefits the community to maintain clean, healthy and hygienic environment.
- HIV/AIDS/Malaria awareness campaign benefits the community to acquire knowledge on precaution from these pandemic/vector-borne diseases. Red Ribbon Club is established with peer educators appointed from each class.
- Special campaign in adopted villages benefits the concerned villagers to have community assets like Passengers Sheds, Water Reservoirs, and Urinals etc.
- Participation in the various programmes for social causes such as rally for blood donations,
- Various programmes to create awareness on anti-trafficking of human, tobacco and other drugs, liquor control etc.
- Organised Anti-Plastic Drive several times at adopted villages and in the city market area, the volunteers educated the shop owners on the harmful effects of plastic and distributed and demonstrated how to make paper bags. The institution and the various committees for extension activities understands that the highest participation can be achieved only through active participations.
- The promotion of activities begins by creating awareness among the students by announcements on the college website and other social media, through Principal's address during orientation, notices circulated in class rooms and displayed on notice board and the concerned faculty inform the students.
- The committees/agencies/services/societies also visit each classroom as a group, giving brief introduction to their activities, distributing forms and inviting them to register as members.
- Orientation programme are organised and all required information and requirements are given out. The students, who have special interest in training or undergoing special courses are given consideration in their attendance and due recognition is given as well for their participation and achievements.
- The faculty in each activity are appointed to supervise over the various committees, and participate in extension activities including training programs, workshops, seminars and field visits on related topics.
- The Department of Commerce undertakes various surveys in order to study the socio-economic state of Mizoram. A comparative study of the state budget with the annual expenditure incurred on the import of the beetlenuts & pan leaves for consumption of pan

was studied by Mr. LalrochuangaPachau(HOD,Commerce Department) and the sixth semester students. The results so derived gave an amazing insight to the ill effects of the pan eating habits of the Mizo people. Furthermore, Pu Lalrochuanga Pachau and the students teamed up and took up the challenging task of studying the number of illegal immigrants undertaking business in Aizawl under a fake Mizo name/ownership. This was done to put notice to the community at large the need to curb such activities as it is a direct violation to law of the land.

- The Department of Political Science visited an Orphanage home ‘Hmangaihna In’, cleaned up the campus and babysitted the children in the home.
- Psychology Department conducted Seminar on ‘Sensitization and Prevention of Suicides’ whereby awareness was created among the participants. They also visited schools of differently-abled students and helped them in their development.
- Education Department visited Govt.MiddleSchool, Chanmari and Tender Pre-Schools, conducted classes, tests and other co-curricular activities etc.

Evidence of Success:

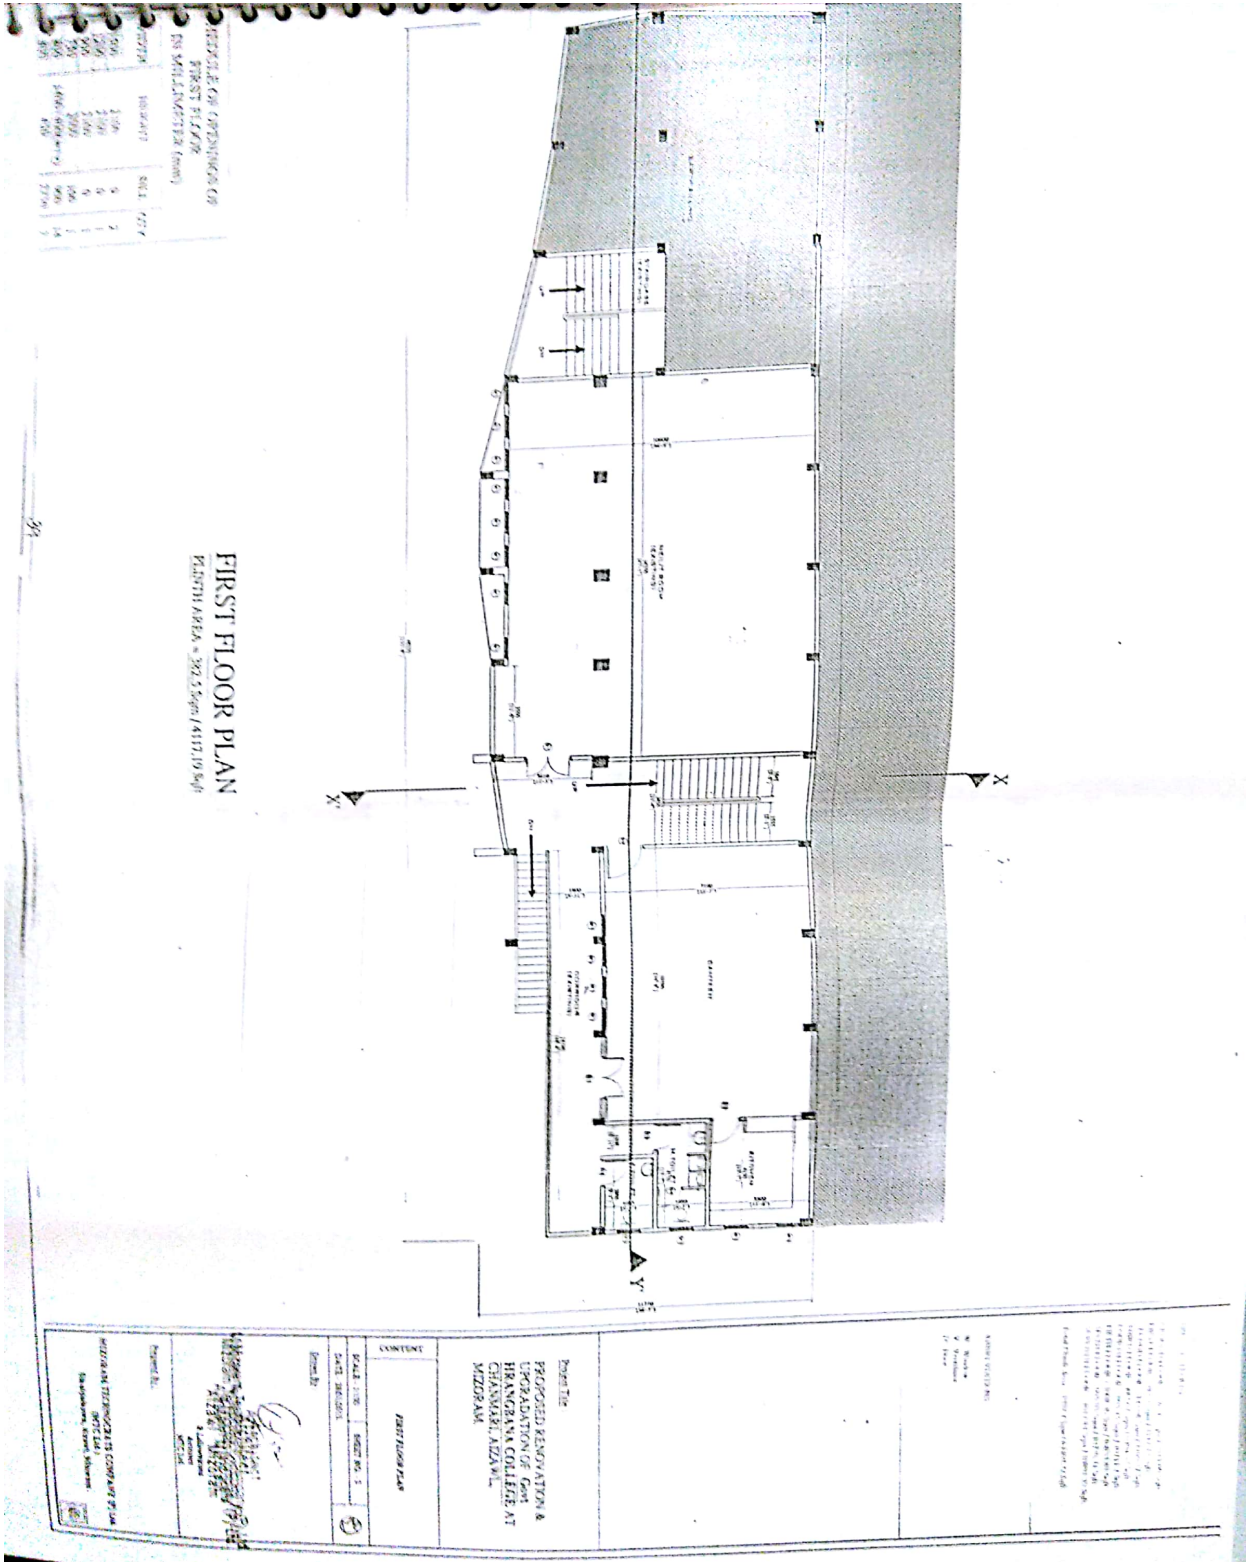

The social responsibility programs have benefitted a lot of under-privileged section of the society. The media has given coverage to the work done by the college. Also several NGOs approach us for volunteers. The students have benefitted a great deal. It has given them confidence in working with the community. It has been a process of self discovery for many.

2015-2016	Second Prize in Overall Category in Voluntary Blood Donation by MSACS.
-----------	---

Problems Encountered and Resources Required:

- There is limitation on funding. Though, there may many programs which can be planned and carried out for conducting social responsibility outreach program very often it cannot be done due to financial constraints.
- There is also problem of time constraints. These programs are conducted in between classes and holidays. Therefore, it is rather difficult to spare time for these programmes.
